Tom Dodd Nurseries

WHOLESALE
Price List
1954-1955

ONE of our modern trailer trucks used to expedite fast, safe delivery to our customers within a radius of 100 to 2000 miles from Semmes. Charges average much less than railroad rates with delivery at your door. All plants are carefully packed and loaded by experts in order to guarantee perfect condition upon arrival. The spacious packing shed shown in the background is also used to store plants awaiting shipment. This protects them from the weather as well as from possible injury keeping them in the same excellent condition as when they were taken from the ground for shipment to you. Modern equipment is used throughout the entire nursery along with modern ideas that help us to grow strong, healthy, hardy plants that can be transplanted without fear of loss. It is to our advantage to offer our truck service to you, as we know that plants grown by us and delivered directly to you will make you a satisfied customer.

You are cordially invited to attend the—

Annual Camellia Festival

Semmes School Auditorium

Semmes, Ala.

January 8 & 9, 1955

Terms and Conditions

TERMS—All prices herein are strictly NET CASH, to the trade only, and are F.O.B. Semmes, Alabama, There is a 2% discount on all items except liners and container material.

C.O.D. ORDERS must be accompanied by 25% of purchase amount. For a deposit of 25% on any order we will hold same.

Lots of 5, 50, and 500 of the same variety and same size will be sold at the 10, 100, and 1000 rates, with the exception of all varieties of Azaleas, on which we cannot accept orders for less than 25 liners of a single variety; nor less than 10 of any other size of a single variety. Specimen stock selected from or marked in the nursery by customers will be charged for according to its value. The prices will be higher than the listed prices.

PACKING—Orders requiring crating or baling for transit via rail, motor freight, air or express will be charged packing at cost.

SHIPPING—Please give shipping instructions whether by freight or express and route. If no instructions are given, we will forward to the best of our judgment, without assuming responsibility. All goods travel at the purchaser's risk and expense.

TRUCK SERVICE—We are able to offer service within a radius of 100 to 2000 miles from Semmes. Charges average much less than railroad rates with delivery at your door. If interested, write for further information.

CAUTION—We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count or other causes beyond our control. All orders are accepted without liability for non-performance if labor shortages or delay in transportation should prevent us from making delivery.

GUARANTEE OF GENUINENESS—If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness on proper proof, to replace such nursery stock that may prove untrue to description or name. We shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

CLAIMS for any cause must be made promptly on receipt of stock. We will not entertain claims after goods have been once accepted, or when report is not made within Ten Days after arrival of stock. We express or imply no warranty as to the productiveness or life of the nursery stock we sell and will not be in any way responsible for the results secured in transplanting.

Azalea

Azaleas are such profuse bloomers that each plant is a solid mass of color. It is indeed one of the most beautiful flowering plants we have in the South.

For culture, Azaleas need only slight attention and wonderful results may be obtained. They require a light, well-drained soil, slightly acid and containing peat-moss or leaf-mold if available. Partial shade, especially when young, and ample water during the dry weather are the other essentials. Cottonseed meal with 0-14-10 about three times a year is a good fertilizer.

Azaleas have proved their value to the Nurserymen and Landscape Architect, their worth as pot-plants to the Florists for forcing. They are rapidly becoming popular because of their wide range of colors and their excellent keeping qualities in hot, dry homes. Use more Azaleas! You will find them a very profitable item in your trade.

NOTE! The 4-6 inch and 6-8 inch bed-grown Azalea are liners and NOT finished plants. They are excellent for lining out but not suitable for forcing or landscape work.

All of our Indica Azaleas are growing in the field which method, we believe, makes for a better plant in every respect.

Prices on all our Azaleas are based on shipping without using burlap about the roots. They can be safely shipped and transplanted in this way, and the saving in labor and material costs enables us to offer these plants at such reasonable prices.

Indica Azalea Growing in Full Sun

Indica Azaleas

The most popular of all Southern flowering shrubs and evergreens, the Indica Azalea continues to retain its unequalled charm and beauty in the landscaped gardens and lawns of the smallest homes to the largest estates.

As its popularity increases, our efforts to produce the best stock continues, and now we have a good supply of many of this type. All are well rooted, have been root-pruned, and are guaranteed to have the best foliage color that can be produced. We urge you to try at least a few. You will be completely satisfied with the sales of these fine, beautiful plants.

All our Indica Azaleas are growing in the field, which method of growing affords a much better plant in nearly every respect.

DAPHNE SALMON—Medium flower, light salmon in color. Upright growth. Sizes, 10-12"; 12-15"; 15-18"; 18-24".

DODD'S PINK—Very hardy Azalea with large pink flowers that appear about the same time as Pride of Mobile. A good grower and prolific bloomer. Sizes, 12-15"; 15-18"; 18-24"; 24-30".

ELEGANS—Flowers of medium size, light pink; early-blooming. Strong, rather open grower; hardy. Sizes, 15-18"; 18-24"; 24-30".

FIELDER'S WHITE—One of the best whites among the Indicas with pure white flowers and dark green foliage. A strong grower and very hardy. Sizes, 10-12"; 12-15"; 15-18"; 18-24".

FORMOSA—A robust, strong-growing Azalea with good foliage and large flowers, freely produced. Blooms early and is one of the easiest to grow. Flower: rose-purplish. Sizes, 12-15"; 15-18"; 18-24"; 24-30"; 30-36".

GULF PRIDE—Sport of Indica Alba. Medium-large flower and light purple in color. Blooms mid-season. Upright grower and very hardy. Sizes, 12-15"; 15-18"; 18-24".

JUDGE SOLOMON—A pink sport of Formosa. Has the beautiful dark green foliage of its parent but hardier. The bloom is a lovely deep pink. This very good variety recently introduced into the Indica family, is rapidly becoming a favorite. Sizes, 10-12"; 12-15"; 15-18"; 18-24"; 24-30"; 30-36".

PRIDE OF MOBILE—Countless watermelon-pink flowers; similar to Formosa in growth, but lighter and more delicate. Probably the most popular of all the Indicas. Very hardy. Sizes, 10-12"; 12-15"; 15-18"; 18-24"; 24-30".

Azalea

Kurume Azaleas

The Kurume Azaleas are one of the most showy of all forms for the garden. They are also well adapted to forcing—thousands of them being sold for such occasions as Mother's Day, Easter, Christmas, Decoration Day, etc. They are comparatively easy to grow and make such a wonderful display that the demand is constantly increasing. Many varieties may be seen growing as far North as Long Island. As a rule, all varieties are extremely prolific bloomers, and in season, the blossoms completely cover the plants. Nearly every shade and hue is represented in Kurume varieties.

BESSIE A. DODD—Our seedling from Coral Bells. Similar to its parent in growth, but with slightly larger delicate clear-pink blossoms. Blooming occurs a week or so later and is somewhat longer than the parent plant. Flowers are of the hose-in-hose type. Sizes, 8-10" and 10-12". (Same sizes in field stock.)

CHRISTMAS CHEER—Very small deep-crimson flowers. This compact plant is good for pot culture and an excellent variety for forcing. Flowers are of the hose-in-hose type. Sizes, 4-6"; 6-8"; 8-10"; and 10-12".

FASHION (Glendale hybrid)—Salmon pink, prolific bloomer. Grows comparatively upright. Sizes, 6-8"; 8-10"; and 10-12".

HEXE—A Kurume hybrid of low, dense, compact habit. Flowers are large for this group and are crimson-red in color. Hose-in-hose. Sizes, 4-6" and 6-8".

HIAWATHA—Indian Red. Blooms late in the season. Sizes, 6-8" and 8-10".

HINO-CRIMSON—Similar to Hinodegiri in growth and habit, but with a more crimson-red flower having a somewhat longer blooming period. Size, 4-6".

OTHELLO (Kaempferi hybrid)—Bright, brick-red flowers, medium to large in size. Fairly resistant to cold. Sizes, 10-12" and 12-15". (Field grown.)

SNOW—Very free-flowering, the bushes are completely covered with snow-white blossoms. A dense compact grower and popular variety. Hose-in-hose. Sizes, 4-6" and 6-8".

Pink Perfection and Debutante*

Camellia Japonica

Presenting a grand array of color in the bleak and otherwise blossomless winter, *Camellia Japonica*, "Aristocrat of the South," is gaining rapid favor in other sections of the country. Its beauty and importance has been definitely recognized on the West Coast, and favorable comments from the Northern Florists continue to increase.

Camellia culture presents no particular difficulties, but special care will be rewarded with beautiful, lasting blossoms. First, they must have a soil that is acid in reaction, and if this condition is not already present it may easily be obtained by addition of leaf mold, peat moss and applications of aluminum sulphate—one quarter pound to a square yard.

Camellias may be fertilized with a mixture of cotton-seed meal, super-phosphate, potash, and well-rotted manure in the respective parts of 10-2-1-5. Aluminum sulphate should be added one-half part if soil needs acidifying.

The few diseases and insects attacking the *Camellia* may be controlled easily. *Camellia* or tea scale, the most common, may be eliminated by use of Florida Volck—1 part to 50 parts of water. Spraying should be done in the early morning or late afternoon, to prevent leaf-scolding. To protect the valued bloom-buds, do not spray in the winter.

Camellia Japonica

ADOLPHE AUDUSSON*—Very large, semi-double and dark red. Blooms mid-season.

12 to 18 inches	\$ 2.00
18 to 24 inches	3.00
24 to 30 inches	5.00

* Grafts

*This photograph, taken in one of our fields in June, 1954,
shows the largest planting of Ilex Roundifolia in the South.*

Camellia Sasanqua

This beautiful plant must be the answer to the Landscape Architect's wish for an evergreen flowering plant which can be used for screening, clipped hedges, a specimen, foundation planting, and espalier. It is one of the hardiest of the broad leaf evergreens and has become very popular with the Landscape Architect.

BENI KANTSUBAKI (Shishigashira)*—Profuse bloomer with double bright rose-red flowers and dark green foliage. Excellent for patios.

12 to 18 inches	\$ 2.80
18 to 24 inches	4.00
2 to 3 feet	6.50

CLEOPATRA—Deep rose semi-double flower of medium size. Numerous short yellow stamens. Plant has small thick leaves of a dark glossy green.

18 to 24 inches	\$ 1.20
2 to 3 feet	1.60
3 to 4 feet	2.40
4 to 5 feet	3.40

CRIMSON TIDE*—Our seedling. One of the earliest sasanquas to bloom. Blooms profusely throughout a very long blooming period. The glowing ruffled red flower is more of a true red than any other sasanqua. Habit of growth is upright, fast and compact, producing excellent dark foliage. It is becoming one of the best for general landscape use and for key plantings. Should do very well beyond the Camellia Belt.

12 to 18 inches	\$ 2.50
18 to 24 inches	3.50
2 to 3 feet	4.50
3 to 4 feet	6.50

DAWN—Semi-double ivory white with light pink margins, Slow, upright grower. One of the hardiest of all Sasanquas.

2 to 3 feet	\$ 2.00
3 to 4 feet	3.00

HIODOSHI—Single crimson, beautifully marbled white. Compact, slow grower. Thick, deep-green foliage.

18 to 24 inches	\$ 1.60
2 to 3 feet	2.40
3 to 4 feet	3.20

* Grafts

JEAN MAY*—Glossy foliage and compact; upright habit of growth. Large double flowers, shell-pink in color. Outstanding.

12 to 18 inches	\$ 3.00
18 to 24 inches	4.50

MINE NO YUKI—Irregular double white. Free and prolific bloomer. Makes massive shrub. Aristocratic.

18 to 24 inches	\$ 1.20
24 to 36 inches	1.60
3 to 4 feet	2.40
4 to 5 feet	3.40

MISS AUBURN—Our seedling. Large single flower of deep rose, shading into a lighter color center. A good fast grower with dark green leaves.

12 to 18 inches	\$ 1.00
18 to 24 inches	1.60

OLEIFERA—Large white with deep pink margin and crinkled petals. Fast grower.

2 to 3 feet	\$ 1.60
3 to 4 feet	2.40

PINK SNOW*—New variety from Mine-no-yuki seedling. Habit of growth differs somewhat in that it is fairly upright and compact. The flower differs only in color to its parent.

18 to 24 inches	\$ 3.50
2 to 3 feet	4.50
3 to 4 feet	5.50

ROSEA—Large, single deep-pink flower. An upright but loose grower.

12 to 18 inches	\$ 0.80
18 to 24 inches	1.20
2 to 3 feet	1.60
3 to 4 feet	2.40
4 to 5 feet	3.40

SHELL PINK—Large, single light-pink bloom. Very fast upright grower and very, very hardy. An excellent item for back-grounds or for screening.

18 to 24 inches	\$ 1.20
2 to 3 feet	1.60
3 to 4 feet	2.40
4 to 5 feet	3.40

SHOWA NO SAKAE (Usa Beni)*—Semi-double to peony. Soft pink color. Heavy bloomer. Flowers sometimes appear the first year. Slow, low and compact.

12 to 18 inches	\$ 2.80
18 to 24 inches	4.00
2 to 3 feet	6.50

TEXAS STAR—Tall, upright grower, symmetrical and very dense. Flowers of medium to light pink.

2 to 3 feet	\$ 1.60
3 to 4 feet	2.40

* Grafts

*A block of Container Material growing under ideal conditions
—plenty of water, fertilizer, and sunshine.*

24 to 30 inch Specimen Rotundifolia

Ilex

ILEX CASSINE BALDWIN—Same as native Dahoon Holly except more fruit and inclined to be more compact.

8 to 10 inches	Each
10 to 12 inches	
	\$ 0.80
	1.20

ILEX CORNUTA BURFORDI*—Very showy with beautiful large red berries and glossy green foliage. Some of the leaves have from 1 to 3 spines and others are spineless. Hardy and at home from the Gulf of Mexico to New Jersey. Each of our plants has been expertly pruned to assume landscape properties.

Liners, CT, 4 to 6 inches	\$ 0.12½	\$ 10.00
Liners, CT, 6 to 8 inches	.15	12.50
Liners, CT, 8 to 12 inches	17½	15.00

Field, B&B, 18 to 24 inches	17.50	160.00
Field, B&B, 2 to 3 feet	22.50	200.00

ILEX CORNUTA FEMINA—Hardy, medium to large shrub with deep-green, glossy foliage, showing numerous prickly spines. Berries large and bright red. Prices same as Burfordi listed above.

ILEX CRENATA BUXIFOLIA—Our seedling. Very compact upright grower. May be used in place of boxwood wherever Crenatas will grow. Has greenest foliage we've ever seen. (Spring delivery.)

2¼ inches pot, per 100	\$ 25.00
2¼ inches pot, per 1000	225.00

ILEX CRENATA GLASS—Very slow, even more so than Convexa. Grows slightly erect and branchy. Shiny dark-green leaves. The lateral or side shoots tend to fill out the plant and to make it compact. (Container stock only. For prices, see page 15.)

* Also available in Container Stocks. For prices, see page 15.

ILEX CRENATA HELLERI—A small, compact variety, low and spreading in growth habit. Used extensively as a low hedge or as a specimen in the rock garden. Also, used as a ground cover. (Container stock only. For prices, see page 15.)

ILEX CRENATA HETZI—Fairly similar to Convexa but more upright and slightly faster in growth. Has some smaller and darker leaves. (Container stock only. For prices, see page 15.)

ILEX CRENATA REPANDENS—A low growing spreading variety with thin, closely spaced leaves. A specimen may measure 15 inches high and 5 feet wide. A very practical substitute for "Pfitzer Juniper." Sheared specimens.

8 to 10 inches	\$ 0.80
10 to 12 inches	1.00

ILEX CRENATA ROTUNDIFOLIA*—One of the most versatile of all the Crenata varieties. Semi-dwarf, compact with dark green foliage and usually without berries. Will tolerate most any type or style of pruning. A view of our fields (pages 10 and 11) shows one of largest and most beautiful stocks in this country.

ILEX CRENATA (Seedlings)—Any description under the Sun is applicable to the hundreds of plants in our block of Crenata seedlings. May be used as fill-in plants where no particular variety is necessary. A chance to discover a new variety.

8 to 10 inches	\$ 0.60
10 to 12 inches	.80

ILEX OPACA EAST PALATKA—A cross of Dahoon and Opaca. Evergreen with virtually spineless leaves. Its deep red berries born in rich abundance and in heavy clusters ripen a month or so before its counterpart, Opaca, and persist until Spring. Truly outstanding.

Liners, CT, 4 to 6 inches	\$ 0.07½
Liners, CT, 6 to 8 inches	.10
Field, B&B, 12 to 18 inches	1.00
Field, B&B, 18 to 24 inches	1.40

ILEX OPACA HOWARDI—Compact growth with dark glossy green foliage. A vigorous grower and a very attractive plant. (Container stocks only. For prices, see page 15.)

> **ILEX VOMITORIA NANA (Dwarf Yaupon)*** — Dwarf growing. Similar to Crenata Helleri but slightly faster growing. Very dense and branchy.

6 to 8 inches	\$ 0.60
8 to 10 inches	.80
10 to 12 inches	1.00
12 to 15 inches	1.40

* Also Available in Container Stocks. For prices, see page 15.

Broad Leaf Evergreens

ABELIA GRANDIFLORA—A very hardy shrub of medium size (up to six feet). Bell-shaped flowers of white, flushed pink; borne mostly in the Summer. Shiny deep-green foliage, tiny leaves. Excellent for screening and hedging.

18 to 24 inches	\$ 0.80
2 to 3 feet	1.20
3 to 4 feet	1.60

CHERRY LAUREL—See *Prunus*.

ERIOBOTRYA JAPONICA (Loquat)—Medium size shrub with large, dark-green leaves providing dense shade. Has pear-shaped yellow edible fruit. Nice for espalier work. (Container stocks only. For prices, see page 14.)

FATSHEDERA LIZEI (Botanical wonder)—Semi-climbing with glossy evergreen leaves similar to *Hedera*. Excellent for espalier work. (Container stocks only. For prices, see page 14.)

FEIJOA SELLOWIANA (Pineapple guava)*—Fast growing, tall, evergreen shrub; known to reach a height of 18 feet. Grey-green foliage and waxy, white flowers with bright red central cluster of stamens.

18 to 24 inches	\$ 1.00
2 to 3 feet	1.40
3 to 4 feet	1.80

GARDENIA RADICANS—Dwarf, creeping type *Gardenia* with small, fragrant flowers. (Container stocks only. For prices, see page 14.)

HYDRANGEA—Medium size shrub with very large pink and blue flowers. (Container stocks only. For prices see page 15.)

ILEX—See pages 16 and 17.

LIGUSTRUM ERECTA—A very vigorous tall growing *Ligustrum*. Glossy, dark green foliage and very compact in growth.

12 to 18 inches	\$ 0.80
18 to 24 inches	1.00
2 to 3 feet	1.60

* Also available in Container Stocks. For prices, see page 14.

LIGUSTRUM LUCIDUM (Wax Privet)*—Large shrubs or tree growing up to 20 feet in height. Has somewhat spreading branches and very dark-green, waxy foliage. Our entire stock of Ligustrum has been expertly trimmed and pruned.

Miscellaneous Shrubs, Trees and Grasses

PINUS CARABAEA (Slash Pine)—Large tree of South Atlantic and Gulf Coastal Plains. Very graceful. Needles 6 to 9 inches long and 3 to 6 inches long. (Container stocks only. For prices, see page 15.)

TAXODIUM DISTICHUM (Baldcypress)—Large tree with swollen base and "knees." Bark reddish brown or gray with long fibrous or scaly ridges. Leaves feather-like. Hardy in Northern states but remains small. (Container stocks only. For prices, see page 15.)

LIRIOPE MUSCARI—Border plant or ground cover. Leaves dark green, narrow and crowded, of about 6 to 8 inches in length; flowers small, violet or white on spikes.

Per 1000 clumps\$50.00

QUERCUS VIRGINIANA (Live Oak)—Fairly large evergreen tree up to 60 feet. Very graceful and sedate. (Container Stocks only. For prices, see page 15.)

QUERCUS SHUMARDI (Red Oak)—Large deciduous tree up to 100 feet. Fast grower. (Container Stocks only. For prices, see page 15.)

LAWN GRASS—Centipede or St. Augustine.

1 to 9 yards, per square yard	\$ 1.50
10 to 99 yards, per square yard	1.25
100 to 199 yards, per square yard	1.20
200 to 299 yards, per square yard	1.15
300 to 399 yards, per square yard	1.10
400 to 499 yards, per square yard	1.05
500 yard or more, per square yard	1.00

* This grass is cut in rolls which measures 1-foot wide and 6 to 10-feet long, the length depending on the customer's desires. This size makes for better handling all along the line. A yard weighs 50 to 60 pounds.
